*"We help people recovering from mental illness & sobriety. We help them with their social skills and teach them to use basic wood working tools so they may apply it to a trade. In turn they help build these beautiful quality hand-made wood crafts for us to sell to help generate funds to support the programs we offer"*

We would like to provide an extra special "**Thank-you**" to **Mr. Felix Floor, Inc.** a local company that donated material to help us with our needs. Please visit them for your flooring needs.
